

THE NEW VALUE FRONTIER

The MyGen 1500 Grid-tie Photovoltaic Power System will generate an estimated 1,475-2,430 kilowatt-hours per year in San Diego and consists of 12 KC125G photovoltaic modules, a Sunny Boy, SMA inverter, courtesy of SMA and all of the safety and mechanical support equipment required for installation. The MyGen 1500 system will increase the value of the winners home by over \$6,000 - according to The Appraisal Journal - and significantly lower their electrical bills for the next 30+ years.

Sponsored by:

Enter to win a free KYOCERA Solar Electric PV System by mailing in the attached form. A donation of \$5 per raffle ticket is required for entry. All entry forms via mail must be received no later than May 15, 2005. Proceeds will benefit the non-profit organizations: San Diego EarthWorks, www.earthdayweb.org and Americans for Solar Power, www.americansforsolarpower.com.

If the winning household is located in San Diego County, the prize also includes installation courtesy of Independent Energy Solutions of San Marcos, CA. Phone: 760-732-9706, www.indenergysolutions.com

If the winner is outside San Diego they agree to be responsible for installation and shipping from Scottsdale, Arizona.

Clip and mail this form to purchase raffle tickets for a free PV system Include a donation of \$5 per-ticket payable to San Diego EarthWorks
